

Pray to end Abortion

Saturday, June 4, 2016 at 10:00 am At the All Womens Health North Clinic, 9730 3rd Ave. N.E., Suite 200. I showed up to pray at this late term abortion site, yes they perform abortions up to 26 weeks (6 months). Many abortion facilities in Seattle, Canada, and out of state send their patients here, locally Swedish, Virginia Mason, UW Medical, and planned parenthood are contributors to this hellish abortion business. For more than four years a few of us have been praying here on Friday mornings and I decided to check out what was going on this particular Saturday morning. Needless to say I was shocked to see 12 cars in the parking lot, knowing full well that other occupants in this building were closed on Saturdays, and the only one open was All Womens Health North. I prayed for an hour almost in despair because of what was happening here and I made up my mind that you should know the devastation of abortion in the state of Washington. I do know that most prolife people will not go and pray at an abortion site, but that you can pray in your home, in your car, or in your church, Right! Pray those considering abortion or who have already made an appointment to have one for a conversion of heart and for them to consider adoption, or to seek help at one of the many Pregnancy centers. Do you realize that these people considering abortion have nobody praying for them. Here is why you should pray. There are more than 25 abortion facilities in our state of Washington, the MOST abortion friendly state in the country, with no restrictions and the most accessible place to have an abortion. Latest statistics(2014) there are an average of 50 abortions or more every day, 365 days a year. Planned parenthood has the most sites and does the most abortions, and if you can't afford an abortion either p.parenthood or the state of Washington will pay for it. And if you are one of those people that say planned parenthood does some good things, go to their website and check out how they prey on children and teens to have as much sex as they want. The statistic that is most heart breaking is how many of us really care enough to do anything about ending abortion. The most popular event is the March for Life in Olympia once a year and 5-7,000 people come, which is good, I am one of them. The other event that draws people to pray and witness is 40daysforlife, twice a year for 40days in front of several abortion sites. The truth is less than 1% of our catholics are involved in prolife activities, and that is disturbing, but all that can change with a commitment to prayer and so I encourage you to make a difference with our only weapon to end abortion, because it won't happen in politics, by now you should know that. If you want any help in getting started contact the Seattlehelpers.org or call us at (206) 546-3923. Maybe you want to join me at All Womens Health North some Friday or Saturday and pray the Rosary and Divine Mercy Chaplet, you are most welcome.
